

## 8002-2+2 Dual Gas – Suppression Panel

SHL 8000-2 +2 Gas and Fire Suppression Series Panel.

The 8000-2 + 2 panel has two independent levels of detection.

- 1.0 Gas Detection alarm at 50-60% LEL significant –  
RED LED ON/Green out – 90 db intermittent audible alarm
- 2.0 Live wire fire sensor set at 400F (per customer specifications) when  
activated - Red LED ON/Green out - 90db plus continuous audible

8000 series panels can be used as stand alone warning systems or combined with all of the USA PRO Safecraft suppression systems.
